ABOUT

Highly motivated JavaScript and TypeScript developer with 9+ month of experience specializing in front-end web development. Passionate about building user-friendly, scalable, and performant web applications using modern tools and frameworks (React). Strong advocate for clean code, testing, and collaboration. Possesses experience with unit and e2e testing, SEO best practices, and contributing to open-source projects.

SKILLS

Frontend

HTML	Jest
CSS	Cypress
JavaScript	RestAPI
TypeScript	
React	
Nextjs	
TailwindCSS	
Redux Toolkit	

Dev Tools

Git

Design

Figma

EXPERIENCE

Personal Projects

Developed e-learning, real estate, hacker news clone, and pizza shop web applications from concept to deployment. Utilized a variety of technologies including React, NextJS, Redux and TailwindCSS. Focused on implementing user-centered design principles and best practices for performance and maintainability.

Marketplace Application Development (startup) - December 2023 – Present

Collaborated with a team to develop a web-based marketplace application from scratch using React. Responsible for building reusable UI components based on Figma designs, ensuring accessibility and responsiveness. Implemented unit and e2e tests for components using Jest and Cypress, writing documentation in Storybook. Contributed to SEO optimization efforts by improving page title tags, meta descriptions, and content structure. Proactively sought opportunities to learn and grow within the team, contributing to a cohesive and productive development environment.
